

# Getting the Permits you Need to Start a Business in Calistoga

PREPARED BY:

City of Calistoga  
Planning & Building Department  
[www.ci.calistoga.ca.us](http://www.ci.calistoga.ca.us)  
January 2013

## PREFACE

The City of Calistoga recognizes the effort and investment that goes into starting a new business and wants to do its part to ensure a timely and efficient opening. The following is a simple guide to help business and property owners understand permitting requirements for establishing a business in a commercial space within the City.

The information in this guide has been organized into a series of step-by-step questions that describe the types of businesses allowed within the City, what types of permits may be required for the business, how to apply for needed permits, and the time and costs associated with processing permits.

Because all businesses and business spaces are unique, it is simply not possible to cover all possible permitting scenarios in this guide. The intent here is to provide a basic overview of permits and permitting requirements to help you understand and integrate these requirements as part of your business plan.

It is important to understand that this guide is not intended to serve as a substitute for consultation with City staff. Early consultation with staff from the City's Planning and Building Department to discuss the particulars of your business and the business space you are interested in is strongly recommended.

The City appreciates your consideration of Calistoga as a place to locate your business. Our staff is ready and available to work with you towards an expedient and successful opening.

# CONTENTS

## 1. IS MY BUSINESS ALLOWED?

- Commercial Zones ..... 1-1

- Growth Management Allocation ..... 4-2
- Planning Permits ..... 4-2

5. WHO DO I TALK TO? ..... 5-1

## APPENDIX

### A. CHECKLIST

## IS MY BUSINESS ALLOWED IN THE CITY?

The City of Calistoga has three “zoning districts” that allow for a wide range of business activities. Zoning districts regulate the types of businesses allowed within the City and where they can be located. Areas within the City that are “zoned” for business are illustrated on the following page. The table below summarizes some of the businesses that are allowed within these zoning districts. Specific regulations for each zoning district, including a complete list of allowable and prohibited uses is available at the Planning and Building Department.

---

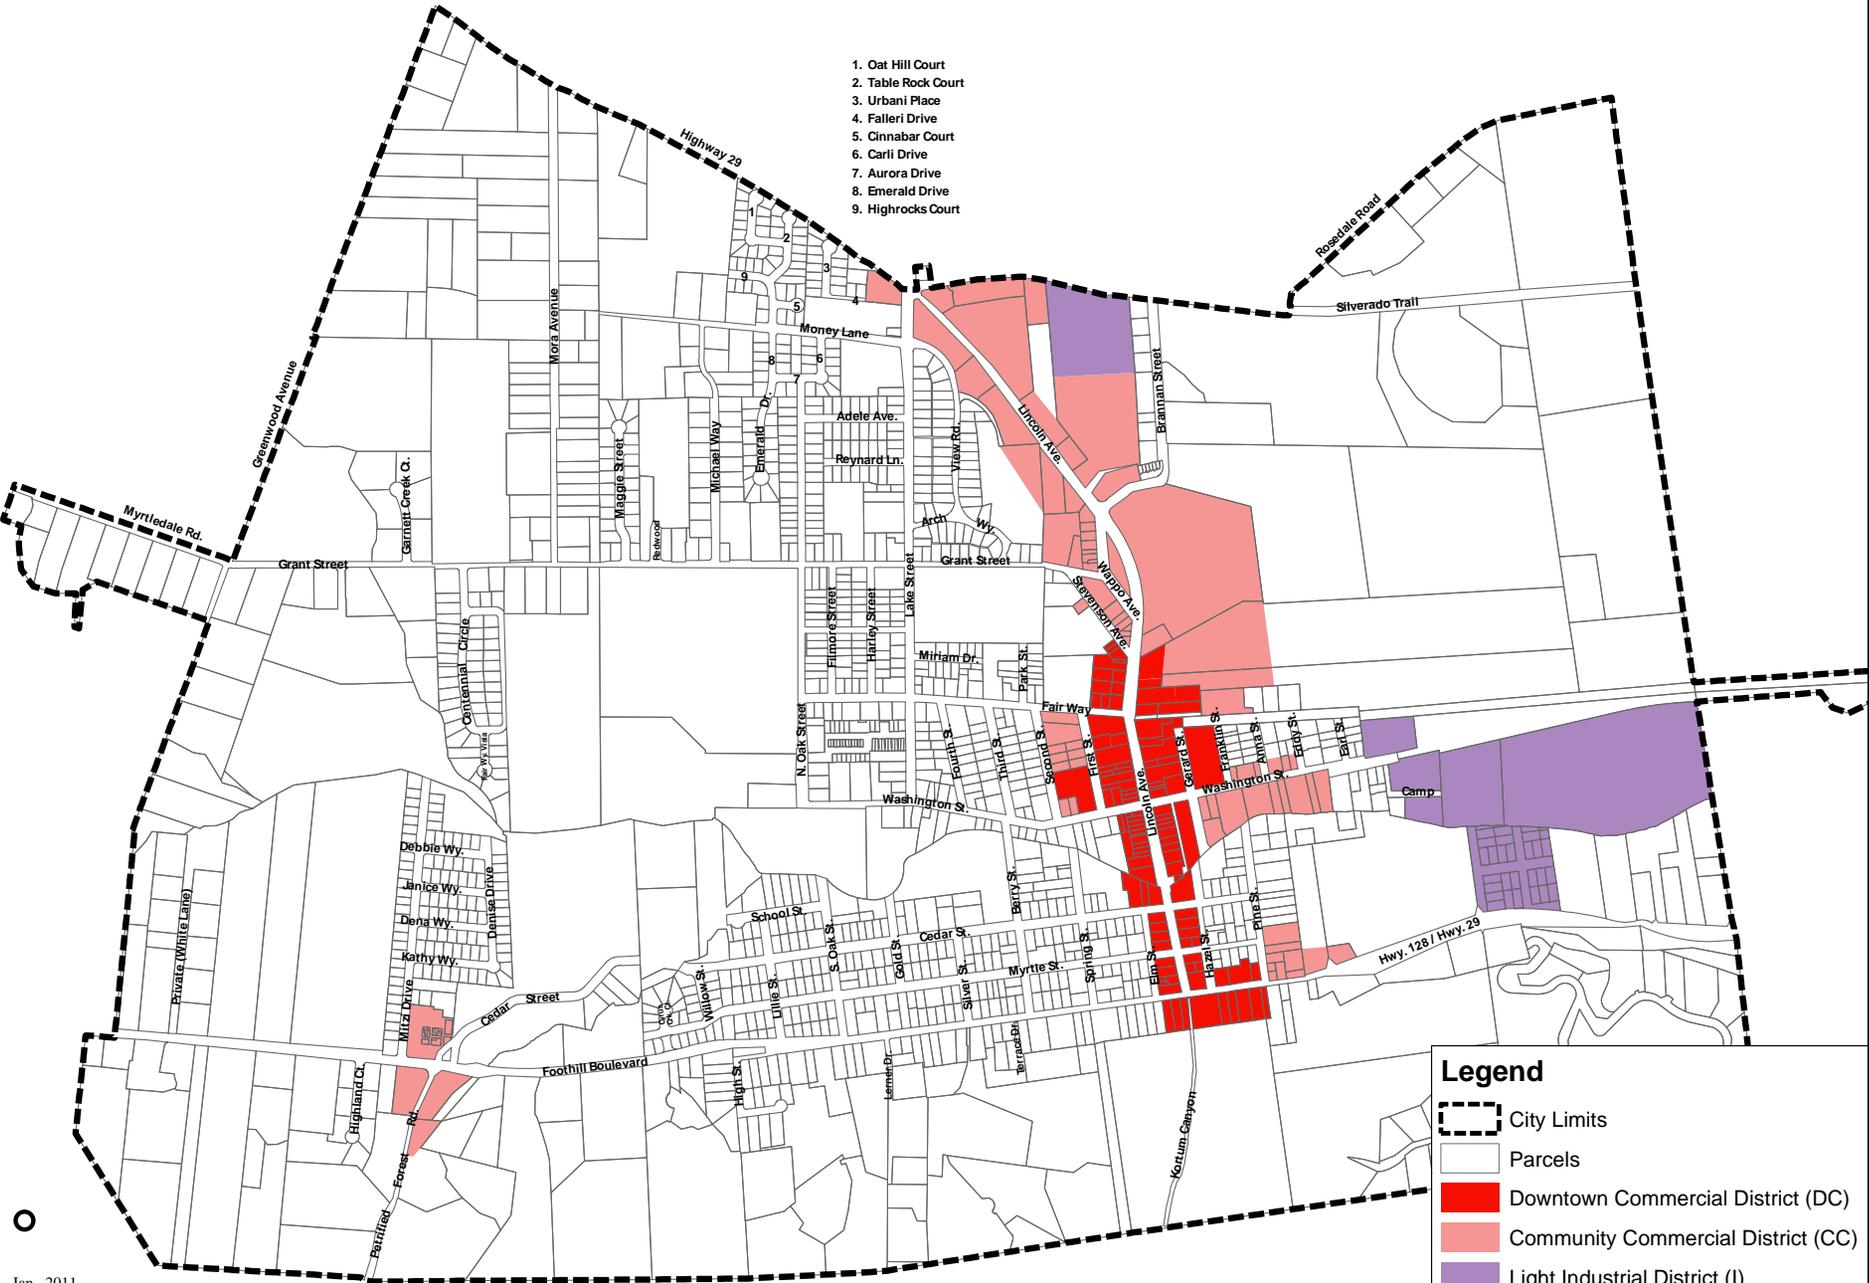

***TIP:** Many businesses or improvements to the business space require permits from the City or other government agencies. Chapter 2 of this guide provides information on permitting requirements for new businesses.*

---

CITY OF CALISTOGA PERMIT GUIDE

## DO I NEED A PERMIT FOR MY BUSINESS?

Depending on the type of business and/or the improvements that will be made to the business space, permits from the City may be required before opening your business. The types of permits most commonly needed by a new business include Building Permits, Planning Permits, and Public Works Permits (for encroachments into the public right-of-way). Certain businesses may also require permits from other government agencies. For example, a restaurant business involving the sale of beer and wine will need permits from the City, the County of Napa (for food and beverage service) and the State of California (for sale of alcoholic beverages).

The following tables provide a general listing of when a certain business or activity will require a permit. **Business owners are strongly encouraged to verify permitting requirements with City staff** prior to signing a lease agreement.

---

***TIP:** ALL new businesses must obtain a Business License from the City and must arrange for a Fire and Life Safety Inspection of the business space prior to moving in. Businesses should also verify that adequate water and sewer service has been allocated to the business space.*

*Information on how to apply for a Business License, make arrangements for a Fire and Life Safety Inspection and verify water and sewer allocations is provided in Chapter 3 of this guide.*

---

When is a Building Permit Required?	
<p><b>Work that does not typically require a Building Permit</b></p> <ul style="list-style-type: none"> <li>- <i>Painting</i></li> <li>- <i>Carpeting</i></li> <li>- <i>Display cabinets</i></li> <li>- <i>Unattached clothing racks</i></li> <li>- <i>Tables and chairs</i></li> </ul>	<p><b>Work that requires a Building Permit</b></p> <ul style="list-style-type: none"> <li>- <i>New walls, floors &amp; ceilings</i></li> <li>- <i>Modifications to existing walls, floors or ceilings</i></li> <li>- <i>New or modifications to existing plumbing, electrical or mechanical equipment</i></li> <li>- <i>Door &amp; window replacement</i></li> <li>- <i>Work on the exterior of the building</i></li> </ul>

Information on applying for a Building Permit and the length of time it takes to process a Building Permit is provided in Chapter 3 of this guide.

**It should be noted** that even if a business does not require a Building Permit, a Planning Permit may still be required for a business proposing an aesthetic change to the exterior of a building. Signs for new businesses also require a Planning Permit.

---

**TIP:** *Businesses who sell or serve alcoholic beverages must obtain a license from the State Department of Alcoholic Beverage Control (see Chapter 3 of this guide for information on how to apply for an alcoholic beverage license).*

---

When is a Planning Permit Required?	
<p><b>Businesses that do not typically require a Planning Permit</b></p> <p><i>Resident-serving retail uses</i></p> <p><i>Bookstores and newsstands</i></p> <p><i>Business and professional offices</i></p> <p><i>Banks and financial institutions</i></p> <p><i>Medical and dental clinics</i></p> <p><i>Art galleries</i></p> <p><i>Antique stores</i></p> <p><i>Restaurants, bakeries and cafés (in the DC Zoning District only)</i></p>	<p><b>Businesses that typically do require a Planning Permit</b></p> <p><i>Hotels, resorts and inns</i></p> <p><i>Sales of second hand goods</i></p> <p><i>Restaurants, bakeries and cafés (in the CC Zoning District only)</i></p> <p><i>Wine tasting, sales</i></p> <p><i>Souvenir shops</i></p> <p><i>Automobile sales, service</i></p> <p><i>Mixed residential/commercial projects</i></p> <p><i>Bars, live entertainment</i></p> <p><i>Liquor stores</i></p> <p><i>All light industrial uses</i></p> <p><i>Outdoor dining in the public right-of-way (sidewalk)</i></p>

Planning Permit requirements vary depending on the type of business or business activity. Chapter 3 discusses the different types of Planning Permits and the amount of time it takes to process a Planning Permit.

<b>When is a Public Works (Encroachment) Permit Required?</b>	
<p><b>Businesses that do not typically require an Encroachment Permit</b></p> <ul style="list-style-type: none"> <li>- <i>Businesses that do not place items or make improvements within or overhanging the public right-of-way (sidewalk).</i></li> </ul>	<p><b>Businesses that do require an Encroachment Permit</b></p> <ul style="list-style-type: none"> <li>- <i>Businesses proposing to locate outdoor seating or dining areas in a public right-of-way (sidewalk).</i></li> <li>- <i>Businesses proposing to install new awnings that overhang the public right-of-way (sidewalk).</i></li> <li>- <i>Businesses proposing to install new signage that overhangs the public right-of-way (sidewalk).</i></li> <li>- <i>Businesses proposing to occupy or conduct business activities in the public right-of-way (sidewalk or street).</i></li> </ul>

Some encroachment permits require that the business furnish proof of liability insurance. A small fee for use of the public right-of-way may be charged to the business.

Information on how to apply for an Encroachment Permit and the length time it generally takes to get an Encroachment Permit is provided in Chapter 3.

<b>When is a County Permit Required?</b>	
<p><b>Businesses that do not typically require a Permit from the Napa County Division of Environmental Health.</b></p> <ul style="list-style-type: none"> <li>- <i>Wine tasting when the wine is produced by the proprietor of the business.</i></li> <li>- <i>Sale of pre-packaged food (that does not spoil) in areas less than 25 square feet.</i></li> </ul>	<p><b>Businesses that do require a Permit from the Napa County Division of Environmental Health.</b></p> <ul style="list-style-type: none"> <li>- <i>Any business that sells or provides food and/or beverages other than those listed under businesses that do not require a permit.</i></li> </ul>

“Food” is defined for these purposes as anything intended for human consumption. It includes such things as candy bars, soft drinks, packaged snacks, bottled water, ice, and coffee. If your operation consists of selling any of these items at the retail level, you will be operating a “food facility”. Even the simplest food facility is required by law to meet certain minimum requirements regarding construction and equipment standards. These requirements depend on the scope of your operation.

Information on how to apply for a health permit from the Napa County Division of Environmental Health is provided in Chapter 3.

More detailed information on County permitting requirements and procedures can be obtained by contacting the County’s Division of Environmental Health at 707-253-4471.

## HOW DO I APPLY FOR PERMITS?

### **BUSINESS LICENSE**

All new businesses are required to have a City-issued Business License before moving into the business space. Existing businesses changing ownership or relocating to a new business space in Calistoga are required to update their existing Business License. Application forms for a new Business License or to change an existing Business License can be obtained at the Administrative Services Department at City Hall or from the City's web site under the category of "Businesses".

### **FIRE AND LIFE SAFETY INSPECTION**

New businesses or existing businesses that are relocating to a new business space must have a Fire and Life Safety Inspection completed before moving into the business space. Fire and Life Safety Inspections are typically conducted in conjunction with the submittal of a Building Permit for improvements to the business space (see section below). If the improvements being made to a business space do not require a Building Permit (see Chapter 2 for a general list of work that requires a Building Permit), a Fire and Life Safety Inspection can be arranged by submitting an application to the Planning and Building Department along with a floor plan showing how the space will be arranged.

---

***TIP:** Business owners should verify that the amount of water and sewer capacity allocated to the property is adequate to meet the needs of the business. This can be done by submitting a brief letter of request to the Planning and Building Department that includes a description of the proposed business, the number of employees and planned hours of operation. A response is typically provided within two weeks. Should it be determined that the property's current water and sewer allocation is inadequate, a Growth Management Allocation request will be required (see section below on "Growth Management Allocations").*

---

Issuance of a Business License and a Fire and Life Safety Inspection can usually be completed within two weeks from the date an application is received.

### **BUILDING PERMIT**

A Building Permit is required for certain improvements being made to the business space (see Chapter 2 for a general list of work that requires a Building Permit). To apply for a Building Permit, an application form along with detailed plans and information on the work being performed must be submitted to the Planning and Building Department.

Submittal requirements will vary depending on the nature and extent of work being performed. Typical requirements include five copies of the following:

- *A completed Building Permit application form*
- *“As-built” (existing) floor plan of the business space*
- *Plans detailing framing and/or foundation work*
- *Plans detailing electrical, mechanical and/or plumbing work*
- *Title 24 Energy Compliance documents*

Submittal of additional information may be required depending on the nature and extent of work being performed. ***Business owners are strongly encouraged to discuss submittal requirements with City staff*** before submitting a Building Permit application.

A Building Permit application form can be obtained at the Planning and Building Department at City Hall. A complete application, including all required plan detail and the required number of copies, is typically reviewed and approved within two weeks from the date of submittal (see process chart on Page 3-8). More complex applications and/or applications requiring the approval of other agencies may take longer to complete.

---

***TIP:*** *Aesthetic alterations to the exterior of a building (e.g., painting, new awnings, etc.) located in a commercial zoning district are subject to Design Review approval even if the business itself does not require any other permit (see “Design Review” section under Planning Permits below). New signs must also be reviewed and approved by the Planning and Building Department (see “Sign Permit” under Planning Permits below).*

---

### **ENCROACHMENT PERMIT**

An Encroachment Permit is required if the business involves use of the public right-of-way for seating, dining, merchandise display or other activity. Installation of a new sign or awning that overhangs into the public right-of-way also requires an Encroachment Permit. An application form for an Encroachment Permit can be obtained from the City’s Public Works Department. It typically takes one to five days, depending upon the complexity and adequacy of the application, to review and approve an Encroachment Permit. Applications that are made in conjunction with other permit applications (such as a Building Permit or health permit from the County’s Environmental Health Division) may take longer to complete.

Long-term use of the public right-of-way as part of a business requires that the business owner name the City of Calistoga as an “additionally insured” on the owner’s general liability insurance policy.

## **GROWTH MANAGEMENT ALLOCATION**

A Growth Management Allocation is required when the amount of water or sewer capacity allocated to a property is insufficient to meet the demand created by the new business. For most re-occupancies of existing commercial space it is unlikely that an additional allocation is needed. However, when there is a change in use (e.g., retail to restaurant), a small increase in allocation may be required. Any additional allocation that is needed to cover increased demand created by the business can be approved administratively by the City's Planning and Building Department. Application forms to request an increase in water and sewer allocation are available at the Planning and Building Department.

---

*TIP: Business owners should be aware that the costs associated with increased water and sewer allocations can be significant. Further, any approved increase in water and sewer allocation stays with the property and is not transferrable. The responsibility for payment of these costs is a matter between the business owner and property owner. To facilitate in the management of these costs, the City offers payment plans.*

---

Information required to be submitted as part the allocation application includes:

- *A completed Growth Management Allocation application form*
- *A written description of the proposed business*
- *Current amount of water and wastewater allocated to the property*
- *A clear description of the amount of water and wastewater being requested (with supporting technical information substantiating request)*
- *One set of mailing labels for notification of property owners within 300 feet of the business and/or property.*

Growth Management Allocation requests are typically processed in conjunction with a Planning Permit (see below). If no Planning Permit is required, an allocation request typically takes two to four weeks to process.

## **PLANNING PERMIT**

Certain businesses require approval of a Planning Permit before a Business License can be issued and/or before improvements to the business space can be made. The type of Planning Permit needed will vary depending on the type of business or on the improvements being proposed. Planning permit requirements are summarized on Page 2-2 of this guide. A complete list of businesses allowed without permit (i.e. permitted uses) and those allowed with an Administrative Use Permit or Conditional Use Permit for each zoning district is available at the Planning and Building Department. Application procedures and timelines for each type of Planning Permit are described below.

***If your business requires a Building Permit and a Planning Permit, you are advised to consult with Planning and Building Department staff*** on coordinating the approval of needed permits. In some instances, a Building Permit cannot be issued until all needed Planning Permits have been approved.

### Administrative Use Permit

Administrative Use Permits are required for uses that are limited in scope or of a temporary nature. They are reviewed and approved by Planning and Building Department staff. Applying for an Administrative Use Permit requires the submittal of a Planning Application Form (available at the Planning and Building Department), a written description of the business or activity, a floor plan and/or site plan, and a set of mailing labels for notification of property owners within 300 feet of the business. Administrative Use Permits generally take two to four weeks to review and approve (see process chart on Page 3-8).

### Conditional Use Permit

Conditional Use Permits are required for certain businesses to ensure that their operations are conducted in a manner that is compatible with its surroundings and the public health, safety and welfare. A complete list of businesses requiring Conditional Use Permit approval is available at the Planning and Building Department. Conditional Use Permits are reviewed and approved at a public hearing held before the City's Planning Commission. In approving a Conditional Use Permit, the Planning Commission must determine that the business meets the criteria for Conditional Use Permit approval. The Planning Commission may also impose operational requirements or other conditions of approval as part of their decision.

---

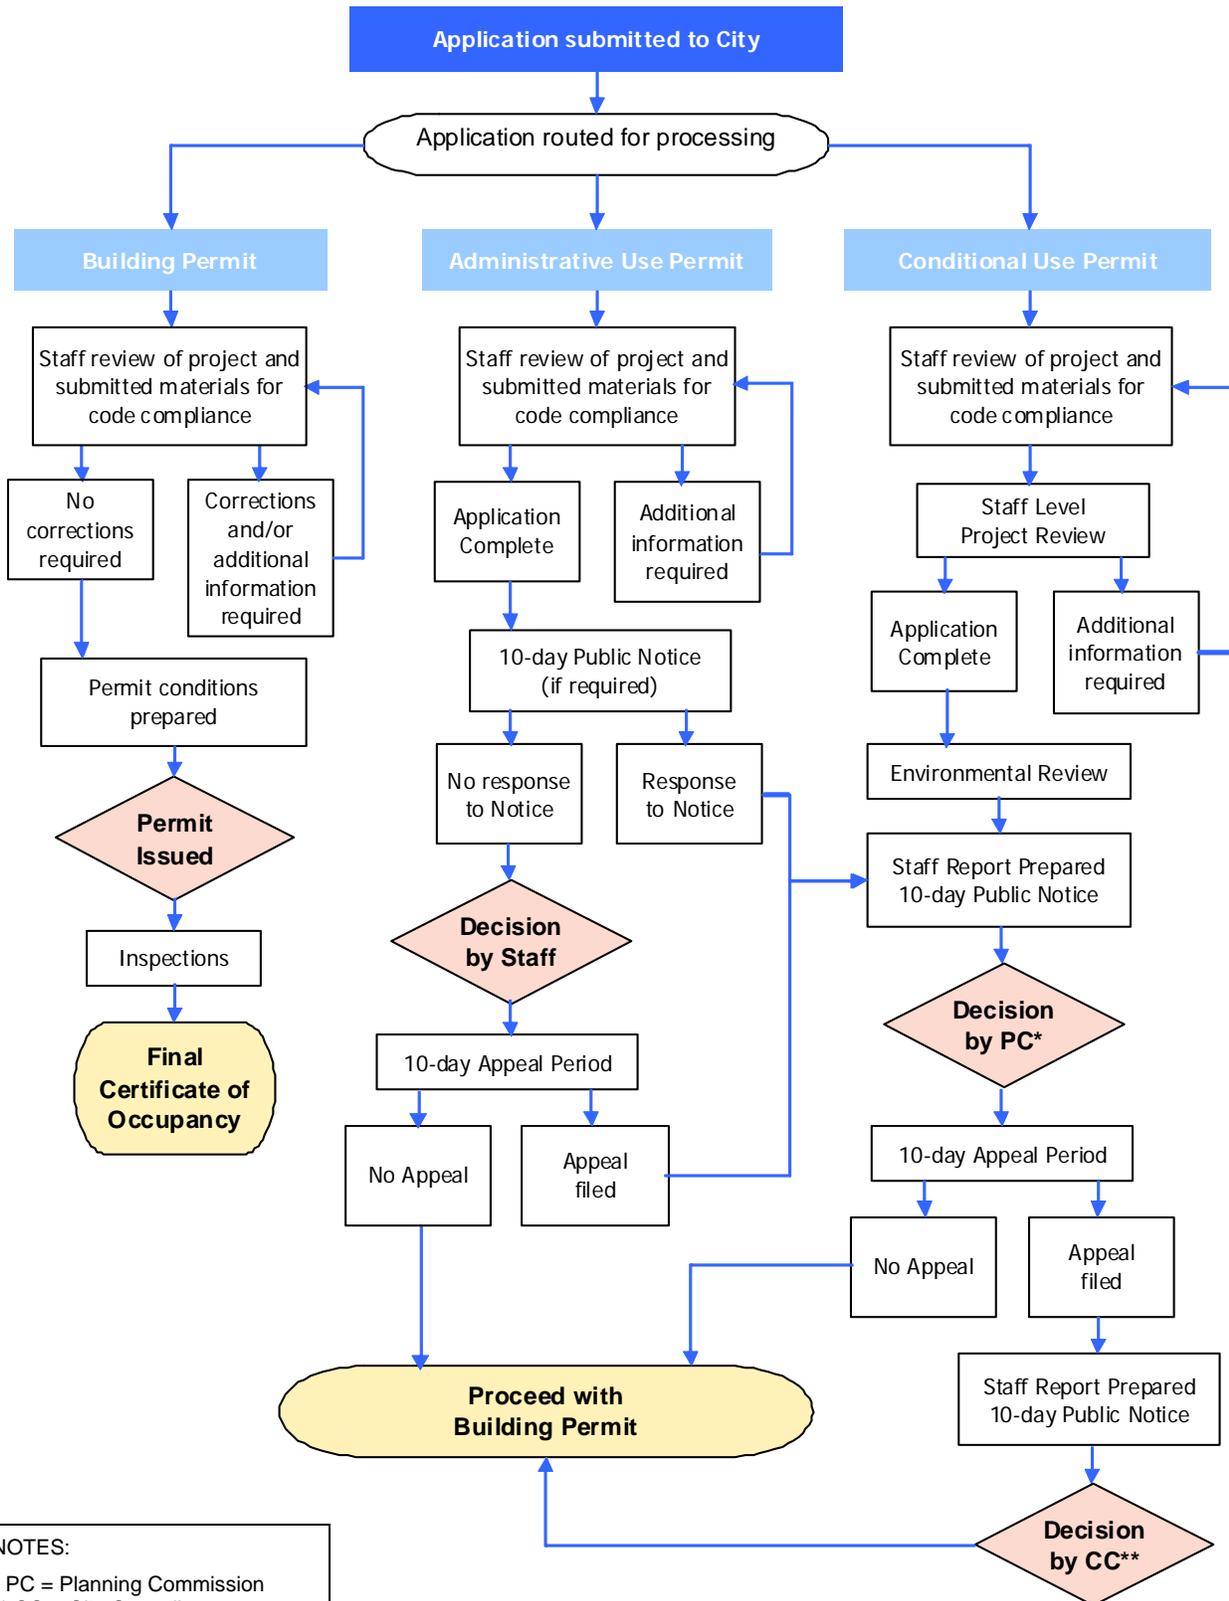

***TIP:** Business owners should be aware that Conditional Use Permits "stay with the land" and are not transferrable from one property to another. If your business is similar to the previous business in the space it may be possible to utilize their Use Permit (if a Use Permit is needed or exists).*

---

Applications for a Conditional Use Permit are available at the Planning and Building Department. Information required to be submitted as part of a Conditional Use Permit application includes:

- *A description of the proposed business and improvements.*
- *A site plan and floor plans (existing and proposed)*
- *One set of mailing labels for notification of property owners within 300 feet of the business.*

# Planning & Building Permit Process

NOTES:  
 \* PC = Planning Commission  
 \*\* CC = City Council

Additional information may be required depending on the nature of the proposed business or improvements. ***Consultation with Planning and Building Department staff is strongly encouraged*** before submitting a Conditional Use Permit application.

It takes approximately six weeks once an application is determined to be complete to review and approve a Conditional Use Permit application (see chart on Page 3-8).

### Design Review

Design Review is required when alterations are being made to the exterior of a building (e.g., change in color, materials, new or relocated windows and doors, etc.). The purpose of Design Review is to promote good design and ensure a harmonious relationship of buildings. In most instances Design Review is conducted administratively by Planning and Building Department staff. For businesses requiring Conditional Use Permit approval, Design Review approval is granted by the City's Planning Commission in conjunction with the Conditional Use Permit.

---

*TIP: Extensive or unusual exterior alterations and/or exterior alterations to a historic or potentially historic building may be referred to the City's Planning Commission for review and approval. Additional information may be required for projects requiring Planning Commission review and approval. Advance consultation with Planning and Building Department staff is encouraged.*

---

Applications for Design Review approval can be obtained from the Planning and Building Department. At a minimum, the following information is required when submitting an application for Design Review approval:

- *Building elevation(s) and/or photo renderings showing the "before" and "after" appearance of the building.*
- *A description or sample of the materials and colors to be used.*

Administrative review and approval of an application for Design Review approval takes approximately two weeks once the application is determined to be complete. Design Review applications requiring Planning Commission review and approval may take four to six weeks to complete.

### Sign Permit

The City of Calistoga has a Sign Ordinance that regulates the type and size of business signs allowed within the City. Most business signs require approval of a Sign Permit prior to installation. Typically, Sign Permit applications are reviewed and approved administratively by Planning and Building Department staff. Signs that are unusual in size or design may be referred to the Planning Commission for approval. Sign Permit application forms are available at the Planning and Building Department.

Application submittal requirements include:

- *An illustration or photo rendering of the sign with dimensions*
- *Information describing or identifying the location on the building where sign(s) will be installed*
- *A description or sample of the materials and colors to be used.*

The City's Sign Ordinance prohibits the following types of signs:

- *Flashing, moving, animated, blinking and rotating signs whose illumination changes with time, or which is designed in a manner to simulate motion*
- *Signs located off the premises they serve, unless otherwise allowed for non-profit or Government agencies*
- *A sign that identifies a phone number*
- *Portable signs located in the public right-of-way*
- *Billboards*
- *Roof sign.*
- *Pennants, balloons and inflatable devices*

Consultation with Planning and Building Department staff on sign size, design and placement on the building is encouraged prior to submittal of a Sign Permit application.

Sign Permit applications that are reviewed administratively typically take one to five days to complete. Sign Permit applications referred to the Planning Commission for review and approval take approximately four weeks to complete.

### **COUNTY HEALTH PERMIT**

The California Retail Food Code requires that a new retail food facility, or an existing retail food facility that wishes to remodel be reviewed and approved by the Napa County Division of Environmental Health (the local enforcement agency). Even the simplest food facility is required by law to meet certain minimum requirements regarding construction and equipment standards.

The County requires that three sets of plans and one set of manufacturer specification sheets be submitted for review. ***Prior to submittal, the plans must be brought to the City's Planning and Building Department to be stamped. The County will not accept plans that have not been stamped by the City.***

Plans and specifications submitted to the County for retail food facilities should include:

- Floor plan of all areas where food will be prepared and stored
- Equipment floor plan
- Equipment schedule
- Finish schedule
- Mechanical exhaust ventilation system data
- Plumbing layout
- Proposed menu

---

***TIP:** The three plan sets required by the County are in addition to the five sets of plans required for a City Building Permit.*

---

A comprehensive Retail Food Plan Check Guide is available from the County's Environmental Management Division (see contact information on Page 5-1). Food facility plans are typically reviewed and approved by the County within 20 business days.

Questions regarding food facility regulations or plan submittal requirements should be directed to the County's Division of Environmental Health at 707-253-4471.

## **STATE ALCOHOLIC BEVERAGE LICENSE**

Businesses that sell or serve alcoholic beverages must obtain a license from the State Department of Alcoholic Beverage Control (ABC). Any person wishing to obtain an alcoholic beverage license should apply at the office of the Department of Alcoholic Beverage Control located at 50 D Street in Santa Rosa. All parties concerned, applicants for new licenses or transferors (present licensees), and transferees (applicants) should be present.

Section 23987 of the Alcoholic Beverage Control Act requires ABC to mail a copy of each application to certain local officials. Section 23985 of the Act requires a 30-day posting period. Most investigations take approximately 45 to 50 days. The license can average about 75 days for a Person-to-Person transfer, and 90 days for an Original. Circumstances can result in longer processing periods. ***ABC cautions that these processing periods should be considered when making extensive financial commitments, plans for grand openings, etc.***

## **SPECIAL EVENT PERMIT**

It is recognized that on occasion a business may wish to hold or participate in a special event which includes activities that are not normally a part of the business. Such events are permitted with a Special Event permit. Information on Special Event permits can be obtained by calling the Community Resources / Recreation Division at 707-942-2838.

## WHAT ARE THE FEES FOR PERMITS?

### BUSINESS LICENSES

Business License fees vary depending on the type of business. For general retail businesses, which includes retail sales, services, lodging and restaurants, annual Business License fees range as follows:

1 to 2 Employees	\$ 101.46
3 to 5 Employees	\$ 184.48
6 to 10 Employees	\$ 350.51
10 plus Employees	\$ 553.44

### FIRE AND LIFE SAFETY INSPECTION

Minimum Inspection Fee: \$100

### BUILDING PERMIT

Building Permit fees are calculated based on the value of work being performed (labor and materials). In general, the Building Permit fee is approximately 2.8% of the value of work. For example, the Building Permit fee for improvements valued at \$50,000 would be approximately \$1,400.

In addition to Building Permit fees, there are other development-related impact fees that may be applied at the time a Building Permit is issued. **Business owners are encouraged** to consult with Planning and Building Department staff on Building Permit fees and other applicable impact fees prior to submitting a Building Permit application.

### COUNTY HEALTH PERMIT

The Napa County Division of Environmental Health charges two separate permit fees for retail food facilities: a Plan Check fee and an Annual Permit fee. Fees are determined based on the menu of the business.

<u>Menu Level</u>	<u>Plan Check Fee</u>	<u>Annual Permit Fee</u>
Low	\$ 329	\$ 378
Medium	\$ 600	\$ 756
High	\$1,140	\$1,134

The fee for review of minor remodels of existing food facilities is \$205.

**ENCROACHMENT PERMIT**

Application Fee            \$25 + 5% of estimated cost of work (labor and materials)

**GROWTH MANAGEMENT ALLOCATION**

Application Fee            \$300  
 Water Connection Fee      \$34,425 per acre foot (one time fee)  
 Wastewater Connection Fee \$100,508 per acre foot (one time fee)

**Standardized Use Assumptions (annual)**

	<u>Water</u>	<u>Wastewater</u>
Commercial (per 1,000 sq. ft of floor area)	0.11 afy	0.099 afy
Restaurant (per 1,000 sq. ft. of floor area)	0.58 afy	0.524 afy

*afy = acre feet per year*

**PLANNING PERMITS**

Administrative (Minor) Use Permit	\$ 200
Conditional Use Permit*	\$1,114
Design Review:	
a. Administrative	\$ 50
b. Planning Commission	\$ 200
Sign Permit:	
a. Administrative	\$ 50
b. Planning Commission	\$ 200

\* A Developer Deposit Account (DDA) may be required in lieu of a standard application fee for more complex applications. Staff time is billed on an hourly basis against the DDA and developers must deposit additional funds should the account balance be depleted during the course of review.

## WHO DO I TALK TO?

### **BUSINESS LICENSES**

Administrative Services / Finance Department
